

DIARY

Special Asst. (Admin.) to DD/I

Wednesday, 25 March 1953

25X9A6

1. Concurred for DD/I in the plan for military slots for the DD/I area for the fiscal year-1954, after discussions with Military Personnel. The plan provides for a total of 41 slots in accordance with the requests submitted by the Intelligence Offices, representing a net increase of two over the current fiscal year. The breakdown by Offices is as follows:

25X9A2

25X1A9a

25X1A9a

25X1A9a

25X1A9a

2. Based on the request from [redacted] requested that O/CI prepare a statement of the duties and responsibilities that [redacted] would perform in the IAC Military vacancy if transferred to the Indications Staff, O/CI. [redacted] is being considered for transfer to O/CI from the Paramilitary Staff in order that his experience in Soviet Air Capabilities can be more effectively utilized. Prior to making a recommendation to the Director, [redacted] was interested in assuring that O/CI had a vacancy which would utilize his unique capabilities. [redacted] has been opposed to the release of [redacted] who feels that his experience is not being fully utilized in his present assignment.

(P.S. Transfer has been approved. com)

3. Discussed with [redacted] O/SI, the current principles governing cable relationships with DD/P and made clear that the AD/SI or his designee is authorized to release cables with the understanding that those involving administrative support or operational matters will first be cleared with the appropriate area division. Cables involving purely substantive intelligence may be released direct with an information copy to the area division.

4. Concurred, subject, to certain revisions based on comments received from the Intelligence Offices, on the following draft regulations:

- a. Communications facilities (Classified radio, teletype, and other electronic Communications facilities)
- b. Leave
- c. Incentive awards
- d. Hours of work
- e. Responsibility of obtaining research reports for matters dealt with abroad.
